INTRODUCTION.

In presenting Vol. I. of TROW'S BUSINESS AND RESIDENTIAL DIRECTORY OF THE BOROUGH OF QUEENS, we have followed the same system and exercised the same care in compiling the work that we have bestowed upon the General and Business Directories of former New York, which we have published for more than half a century.

We have spared no expense or labor to make this work efficient and useful, nevertheless it will be found that we have made errors, both of omission and commission, and we will at all times deem it a favor conferred to have our attention called to such.

In obtaining the information concerning the City and Borough Departments, we have met with much difficulty, owing to the fact that changes in the personnel of the various Departments are continually taking place and the locations of many Bureaus have not been definitely decided upon; in the main, however, the information here given will be found reliable and authentic.
